PEORIA – The Illinois Department of Transportation announces that traffic on Allen Road in Peoria at IL 6 will be controlled by stop signs in all directions during daytime hours Wednesday, August 6th and Thursday, August 7th.

This is necessary for crews to activate temporary signals. Motorists should expect delays Wednesday and Thursday and consider alternate routes.

The overall project consists of pavement reconstruction, widening of the bridge that carries Allen Road over IL 6, reconfiguration of the Allen Road/Alta Lane intersection, construction of a multi-use path on Allen Road, and construction of a tunnel for the Rock Island Trail.

The project is scheduled to be completed by late fall of 2015.

Please slow down and use extreme caution while driving through all work zones.
