# *IDOT BRIDGE INSPECTION REFRESHER COURSE*

## Virtual Course Participant Instructions:

Welcome to the IDOT Bridge Inspection Refresher Course.  This class provides refresher training for bridge inspection team leaders and program managers.  The class will be presented online over a four-day period.  The class instruction times are:

> Monday -   8:00AM – 12:40PM
> Tuesday -   8:00AM – 12:40PM
> Wednesday -   8:00AM – 12:40PM
> Thursday -   8:00AM – 12:40PM

### Class login platform and address:

- Participants will need to download the Zoom application to their computer ***prior to logging into the class***.  Only the free version is required to participate in the class.

- Go to https://zoom.us/download to download the "Zoom Desktop Client" app on your computer.

- Participants will not be able to use their internet browser to log into and participate in the class. You must log on using the downloaded Zoom software to have interactive capability (answer and ask class questions) and receive credit for the class.

### Class participant instructions:

- Participants will not need a camera or microphone to take part in the class. All participant communication will be through written chat format. Use the Chat Button on the Zoom interface to ask questions. Each participant must log in on a separate computer. Multiple participants per computer is not allowed.

- ***Please be logged on approx. 5-10 min before class is to begin***.  Logging in each day and logging out will take the place of the signing in and out procedures. When you log into Zoom use your actual full name so we can verify who you are and give you credit for being present!

- Participants ***must have access to a copy of the current ISIS Manual while also being able to view the class***. Link to ISIS Manual.

- Participants will be required to answer questions asked online throughout each day. The ISIS Manual will be required to answer many of the answers.

- Having a copy of the class notes that are provided on the IDOT website available during the class may be useful. Link to Class Notes.
