Comments:

As required, the Urbana Police Department collected and reported data on pedestrian stops from 2016-2018. In the absence of explicit definitions of key terms in the statute, our data collection practices included a much broader range of pedestrian stops than our counterparts across the state. We believe this accounts for the higher number of stops reported by the Urbana Police Department. After consulting with IDOT, state legislators, and other law enforcement agencies in the fall of 2018, we have revised our data reporting practices to be more in line with the intent of the statute and with other law enforcement agency practices beginning in January 2019. We strongly urge IDOT and the Illinois General Assembly to explicitly define key terms in the statute in order to produce consistency in reporting across agencies. As currently written, the statute allows for wide latitude in interpretation of reporting requirements.
