

Proposed Highway Improvement Program

FY 2023

Program Overview

Each year, the Illinois Department of Transportation develops the Annual Highway Improvement Program. This publication presents a detailed account of the Fiscal Year 2023 highway program element, originally presented in the Fiscal Year 2023-2028 Proposed Highway Improvement Program. It provides a current listing of the projects sorted by district and phase of work to assist stakeholders with planning activities.

On Nov. 15, 2021, the Infrastructure Investment and Jobs Act, also known as the Bipartisan Infrastructure Law, was signed into law. This new five-year funding authorization bill provides for an approximate 20% increase in federal formula funds and an estimated 12% increase over existing formula funds. This funding, along with additional funding from the Rebuild Illinois capital program passed in June 2019, will help to make significant progress in addressing our road and bridge needs in Illinois. We are in a favorable position to take advantage of IJA because of the Rebuild Illinois capital program.

The IJA and the Rebuild Illinois capital program have significantly increased the size of IDOT’s highway program. The FY 2023 Annual Highway Improvement Program remains significantly larger than previous years, providing \$3.7 billion of the \$24.6 billion included for highways in the Fiscal Year 2023-2028 Proposed Highway Improvement Program. Also included are projects totaling \$262 million in appropriations from previous fiscal years that are scheduled to be implemented in FY 2023. As a result, the FY 2023 Annual Highway Improvement Program totals \$3.962 billion. This allows the department to continue to move assertively towards meeting Transportation Asset Management Plan goals and fixing our state’s crumbling infrastructure.

FY 2023 ANNUAL HIGHWAY IMPROVEMENT PROGRAM				
NUMBER OF IMPROVEMENTS		NUMBER OF SAFETY/TRAFFIC IMPROVEMENTS	DOLLARS INCLUDED IN PROGRAM	
900	162	67	\$2.765B	\$1.197B
HIGHWAY MILES	BRIDGES	LOCATIONS	STATE SYSTEM	LOCAL SYSTEM

A total of 900 miles of highways and 162 bridges will be improved or constructed through the FY 2023 Annual Highway Improvement Program. Safety and traffic improvements are scheduled at 67 locations. The FY 2023 Annual Highway Improvement Program includes \$2.765 billion for projects on the state highway system and \$1.197 billion for projects on the local system.

This year continues the implementation of the federally required TAMP. This means that states are required to consider the life-cycle cost of roads and bridges. On Aug. 29, 2019, the Federal Highway Administration determined that IDOT had developed and implemented a fully compliant TAMP. Under asset management, a data-driven decision process has been developed and implemented that supports the use of analysis tools and life-cycle strategies to reduce the rate of system deterioration as cost-effectively as possible. The department will continue to address road and bridge preservation needs to ensure our system is safe but will also spend money on low-cost treatments to preserve those roads and bridges and keep them in acceptable condition longer. The projects in the FY 2023 State Program of the Annual Highway Improvement Program have been selected within the parameters of the TAMP.

The program priorities are to maintain and preserve our existing roads and bridges, or assets, with a special emphasis on the National Highway System and structurally deficient bridges on that system. There are more than 7,700 miles of roads and 4,829 bridges (totaling 75,024,644 square feet of deck area) on the NHS.¹ The department’s focus on the NHS is due in large part to new federal performance rules that require state departments of transportation to prioritize its condition. New federal performance measures were developed to “increase the accountability and transparency of the federal-aid highway program and provide for a framework to support improved investment decision making through a focus on performance outcomes for key national transportation goals.”²

Asset management is a strategic and systematic process of operating, maintaining, and improving physical assets, with a focus on engineering and economic analysis based upon quality information, to identify a structured sequence of maintenance, preservation, repair, rehabilitation, and replacement actions that will achieve and sustain a desired state of good repair over the life cycle of the assets at minimum practicable cost. (23 U.S.C. 101(a)(2), MAP-21 § 1103)

¹ National Highway System Illinois Highway Statistics Sheet 2021

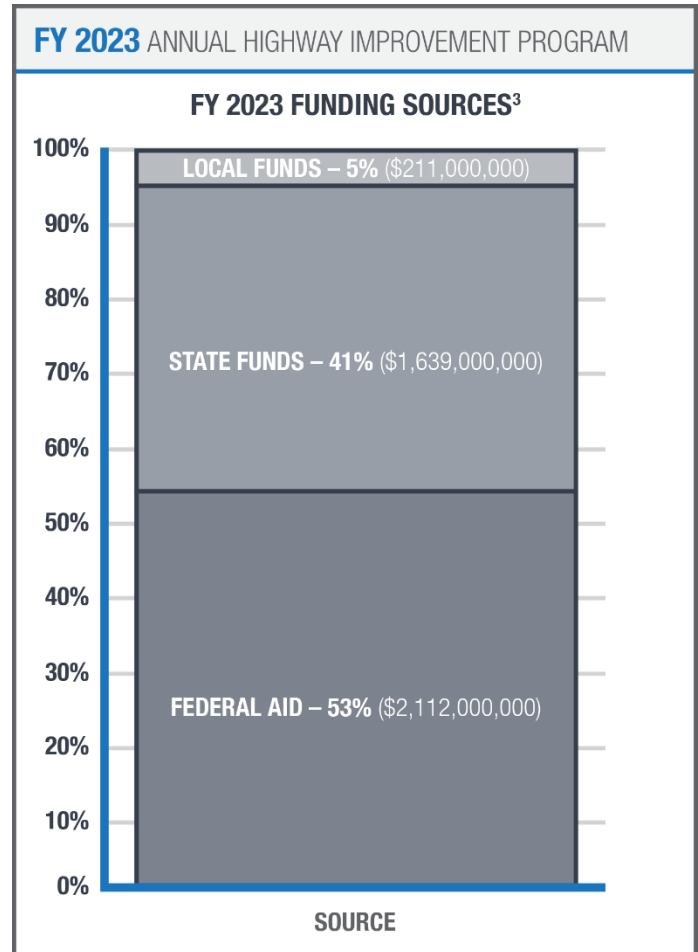

² <https://www.fhwa.dot.gov/tpm/rule.cfm>

The chart to the right displays the funding sources for the Annual Highway Improvement Program.

State Program

The FY 2023 state program included in the Annual Highway Improvement Program focuses on maintaining and preserving our existing roads and bridges, or assets, with a special emphasis on the NHS and structurally deficient bridges for a total cost of \$2.765 billion. This investment allows for 580 miles of roads to be improved or added to the existing highway system, along with 1,280,136 square feet of deck area improvements (71 bridges) and 41 intersection and spot improvements.

The department is working to more accurately relate costs associated with preservation and maintenance activities. Through this effort, IDOT has the ability to evaluate potential investment strategies and determine how best to reach the goals outlined in the TAMP. With the additional funding provided by IIJA and Rebuild Illinois, it is anticipated that the pavement goals will be met or nearly met. However, the rate at which bridges are deteriorating will make it very difficult to meet the bridge targets, even with the additional investment provided by IIJA and Rebuild Illinois. All pavement and bridge projects included in the state program have been evaluated to ensure they are programmed for the right treatment at the right time, consistent with the life-cycle planning as described in the TAMP.

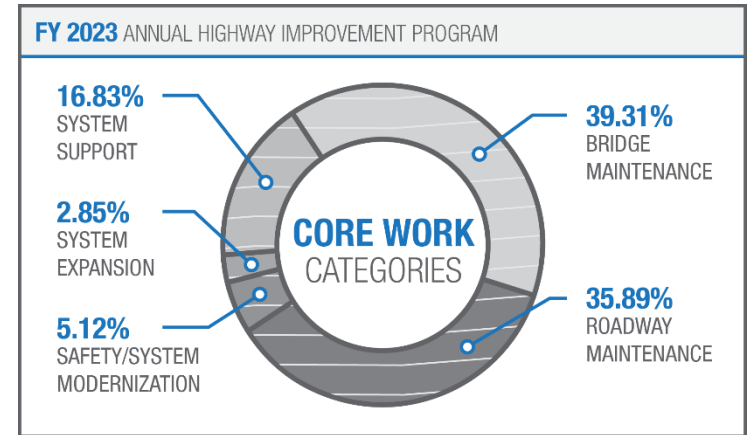

³ There are projects totaling \$262 million included in the published FY 2023 program utilizing reappropriations.

Core Work Categories

The implementation of asset management has necessitated several changes to the FY 2023 state program, as federal asset management rules require that IDOT show a commitment to preserving and maintaining the existing system. The department's focus has been modified to concentrate on five core areas in categorizing projects: road maintenance, bridges, safety/system modernization, system expansion and a system support category that includes assets and activities supporting the transportation network, as shown in the chart to the right. Additional IJJA funding has allowed the department to significantly increase the funding in the bridge maintenance category over the previous year.

The types of work included in the core areas are:

- **Roadway Maintenance** includes reconstruction, resurfacing, widening and pavement preservation projects.
- **Bridges** consists of bridge replacement and rehabilitation, minor structure repairs and preservation projects. Bridge information will be discussed in terms of square feet of deck area instead of number of bridges.
- **Safety/System Modernization** consists of projects such as interchange reconstruction, interstate safety projects, and traffic and safety improvements.
- **System Expansion** includes major projects, such as new bridges on new alignment, bridge replacements that increase capacity, additional lanes, new interchanges, and strategic regional arterials.
- **System Support** consists of rest area and weigh station maintenance, miscellaneous districtwide projects, contract maintenance, statewide engineering or other statewide items, such as pavement markings, guardrail delineation, sign truss work and median barriers.

The table below lists the miles of roads and square feet of bridges programmed in the FY 2023 state program for the NHS and non-NHS system.

Table 1. Total Miles and Square Feet of Bridges in the FY 2023 State Program

FY 2023 Core Work Categories Programmed Improvements

Roadway Maintenance

Interstate NHS (miles)	78
Non-Interstate NHS (miles)	158
Non-NHS Marked (miles)	200
Non-NHS Unmarked (miles)	23

Bridges

Interstate NHS (sq. ft.)	692,632
Non-Interstate NHS (sq. ft.)	301,110
Non-NHS Marked (sq. ft.)	138,376
Non-NHS Unmarked (sq. ft.)	146,825

Safety/System Modernization

Safety Locations (number)	41
---------------------------	----

System Expansion

New Bridges (sq. ft.)	1,193
-----------------------	-------

Preservation

Accomplished (miles)	121
----------------------	-----

The following notable NHS system projects are included in the Annual Highway Improvement Program:

Northern Illinois

- Reconstruction and new culvert on Interstate 80 at Ridge Road to River Road in Minooka at a cost of \$53.6 million.
- Bridge deck overlay, joint replacement/repair and roadway approach on Interstate 90 at Interstate 94 to Hubbard Street in Chicago at a cost of \$30 million.
- Designed overlay, widening existing pavement, new shoulders and culvert replacement on U.S. 67 at 270th Avenue to 210th Avenue in Warren County at a cost of \$20 million.

Central Illinois

- Designed overlay and resurfacing on Interstate 55 from the Logan County line to 1.8 miles south of Shirley in McLean County at a cost of \$20 million.
- Standard overlay, resurfacing, cold milling and patching on Interstate 55 from 1.3 miles south of Waggoner to Macoupin Creek 0.4 miles south of County Highway 17 at the Farmersville interchange in Montgomery County at a cost of \$13 million.
- Standard overlay, resurfacing and ramp repair on Interstate 64 from the Jefferson County line to 7 miles west of U.S. 45 in Wayne County at a cost of \$24.8 million.
- Designed overlay on U.S. 51 from the Dewitt County line to 0.1 mile north of Forsyth Road in Maroa at a cost of \$29.3 million.

Southern Illinois

- Additional lanes on Interstate 64 from 0.4 miles west of Greenmount Road to 1.1 miles west of Illinois 158 in St. Clair County at a cost of \$28.6 million.
- Reconstruction on Interstate 64 at the Washington County line to Interstate 57 in Jefferson County at a cost of \$69.4 million.
- Reconstruction on Interstate 57 from 0.5 miles north of Illinois 146 to Interstate 24 in Union and Johnson Counties at a cost of \$29.3 million.

Of the 39 NHS bridges programmed, 27 are structurally deficient. Following are a few of the significant NHS bridge projects included in the Annual Highway Improvement Program:

Northern Illinois

- Reconstruction, bridge replacement and widening on Interstate 80 from Gardner Street to Rowell Avenue in Joliet at a cost of \$35.1 million.
- Bridge replacement, channelization and ADA improvements on U.S. 20 at Illinois 31 in Elgin at a cost of \$13 million.
- Bridge widening, joint replacement/repair, deck overlay, new deck, painting and interchange reconstruction, pump station and lighting on Illinois 43 at U.S. 12/20 0.6 miles north of Interstate 294 in Bridgeview at a cost of \$32.7 million.

Central Illinois

- Bridge replacement, horizontal realignment, new culvert and culvert extension on U.S. 67 over the Illinois River in Beardstown at a cost of \$74 million.
- Bridge replacement, interchange reconstruction, designed overlay and resurfacing on Interstate 57 at Illinois 16 interchange east of Mattoon at a cost of \$38.2 million.

Southern Illinois

- Bridge replacement and bridge approach roadway on Interstate 270 over the Mississippi River in Madison County at a cost of \$307 million.

Local Program

The FY 2023 Highway Improvement Program includes improvements on local streets and highways using federal funds. A portion of the federal funding is allocated based on population to local agencies throughout the state. The local program included in the FY 2023 Highway Improvement Program provides \$1.197 billion to fund improvements on 320 miles of road and 458,041 square feet of deck area (91 bridges), along with 26 traffic and safety improvements. In addition, \$7 million is included in the program to help local governments upgrade designated truck routes.

Under the current asset management requirements, IDOT is required to report on the condition of the total NHS, regardless of who maintains it. Of the 320 miles of road and 105 bridges programmed, six miles and three bridges are located on the locally owned NHS. The three bridges total 124,622 square feet and are structurally deficient. IDOT will work with its local agency partners to develop a plan to address the maintenance of the locally maintained miles and square feet of bridge deck area to determine how their plans impact IDOT's ability to meet its goals.

The FY 2023 Highway Improvement Program also provides \$75.1 million in state funds to assist local governments that are not listed in this document. These funds are allocated directly to local governments by formula. The breakdown is as follows:

FY 2023 ANNUAL HIGHWAY IMPROVEMENT PROGRAM			
 \$16.8M FOR NEEDY TOWNSHIPS	 \$6.7M FOR HIGH-GROWTH CITIES	 \$36.6M TO COUNTIES LESS THAN ONE MILLION IN POPULATION	 \$15M FOR THE LOCAL TOWNSHIP BRIDGE PROGRAM

Approximately \$986.6 million of state motor fuel tax funds will be directly distributed to municipalities, counties and townships for administration and the repair of local roads and bridges during FY 2023. This distribution is in addition to the state’s \$3.962 billion FY 2023 Annual Highway Improvement Program.

GUIDE TO THE LISTING

The projects included in the FY 2023 Annual Highway Improvement Program are grouped by state highway district. Within each district, projects are listed under six headings:

- State Construction
- State Engineering
- State Land Acquisition
- Local Construction
- Local Engineering
- Local Land Acquisition

Individual projects are listed within these six headings in descending route marking order, i.e., Interstate, U.S., Illinois and other. Each project's funding type is identified by eligibility with symbols. The symbols and their funding categories are shown in Table 2. Projects in some categories, such as railroad-highway grade crossing safety and some statewide and districtwide items, will be identified and selected during the fiscal year. A glossary with abbreviations is listed in Table 3.
