Domestic Steel Act Applies: All iron and steel products, which are to be incorporated into state projects shall be domestically manufactured or produced and fabricated. The Contractor shall obtain from the iron or steel producer and/or fabricator, in addition to the mill analysis, a certification that all iron or steel materials meet these domestic source requirements. The application of all coatings, epoxy, galvanizing, painting, etc., to metal products shall be domestically applied.

Approved/Qualified Product List
SNOWPLOWABLE RAISED PAVEMENT MARKERS

April 2, 2021

This list supersedes the [October 25, 2019](#) list.

Standard Specifications for Road and Bridge Construction Article 1096.01 **Raised Reflective Pavement Markers**
(Adopted April 1, 2016)

Submittal for Approval

A. Scope

The following guidelines are provided to clarify the submittal requirements for approving an iron casting and or replacement reflector according to Article 1096.01 **Raised Reflective Pavement Markers** of the [Standard Specifications for Road and Bridge Construction](#).

B. Procedure

When submitting an iron casting or replacement reflector to the Department, the following shall be included with the material:

- The specific product brand name,
- Technical Data Sheet,
- A signed letter stating the subject material will not be changed without written notification to the Department,
- Contact person's name, title, address, email address, and phone number, and
- Acknowledgement by Company [form BMPR 101](#).

The sample and submittal information shall be sent to:

[Anthony Wagner](#)
Analytical Chemistry Lab
Illinois Department of Transportation
Bureau of Materials
126 East Ash Street
Springfield, IL 62704-4766

C. Recertification

Recertification of all Raised Reflective Pavement Markers is required every five years or when a change is made to the manufacturing process.
