

The Illinois Route 29-Study

2nd Public Information Meeting

Welcome

Thank you for attending the 2nd public information meeting for the IL 29 Corridor Study.

Please sign in and review the meeting handout. Spend some time reviewing the displays and discussing the alternatives and other aspects with the study team. Please note that for your convenience, there are multiple sets of displays at today's meeting showing the latest alternatives in the South, Central and North Sections.

What's Been Done Since the First Public Information Meeting?

Since the first public meeting in June 2003, several alternatives have been withdrawn from further consideration.

IDOT has started to work on preliminary design for the alternatives that remain. The exhibits shown today provide more detailed information on access to properties and the required right of way. All the alternatives that have been withdrawn and those that remain are shown in the meeting handout and exhibits.

Next Steps

You may write your comments and leave them in the comment box or mail the form to IDOT after you leave the meeting.

All written comments received within 10 days after the meeting will be included in the official project record. Following this meeting, IDOT will review meeting comments and consider them while refining the remaining IL 29 alternatives. In 2005, a Public Hearing will be held to solicit comments on the project alternatives and the Draft Environmental Impact Statement.

Thank you for attending this meeting and for your interest in this study.
