Applicants will be notified in writing to schedule interviews.

*Individual salary offers are computed based on an applicant's qualifications and experience relative to the posted title as well as internal equity of staff in the organizational unit.

**ILLINOIS DEPARTMENT OF TRANSPORTATION
POSITION DESCRIPTION**

DATE:	April 23, 2019	WORKING TITLE:	Surveyor
POSITION CLASSIFICATION:	Land Surveyor I	OFFICE/BUREAU:	OHPI/Program Development
POSITION NUMBER:	PW801-23-57-301-50-01	REGION/DISTRICT:	Region 4/District 7

Position Purpose

This position is accountable for assisting in obtaining field survey measurements by operating and reading instruments used in conducting route, bridge, hydraulic and property surveys.

Dimensions

Number of Surveys:	35 to 50 surveys of .5 mile to 20 miles in length throughout 16 counties
Value of Design Contracts:	\$50,000 to \$20 million
Survey Equipment Value:	\$25,000 to \$75,000

Nature and Scope

This position reports to the Senior Survey Crew Chief. No subordinates report to this position.

Under direction of the Senior Survey Crew Chief, the position functions as a member of a survey crew and furnishes accurate data from the instrument readings. S/He works very closely with other members of the team, frequently under physically demanding conditions and must maintain a cordial and efficient relationship with the crew members.

The greatest challenge to this position is to ensure accurate instrument readings and measurements to correctly reflect the topographic features of the area surveyed. Typical problems of this position include proper maintenance and calibration of surveying instruments, obtaining accurate and properly documented survey information and maintaining cordial relationships with property owners whose land s/he must access to obtain the survey data.

The incumbent is personally responsible for recording survey data, taking instrument readings and performing calculations under general direction. This position is personally responsible for the proper operation of the surveying instruments. S/He evaluates and checks angles turned, distances measured, calculations and closures recorded in the field book by the Survey Crew Chief and ensures that the readings and calculations are recorded in an understandable manner to facilitate their use in the preparation of the plans. The incumbent locates topographic features, property lines, cross sections and right-of-way stakes as well as takes necessary instrument readings to establish and place horizontal and vertical controls along the survey lines. S/He assists in setting up and operating the total station, Global Positioning System (GPS), and level as well as maintaining the necessary survey supplies. The incumbent performs routine calculations and prepares preliminary drafts. S/He assists in searching court records for the name of owners and the property descriptions. The incumbent also assists in flagging traffic and setting barricades when survey crews are operating on or near roadways.

The incumbent completes assignments with limited latitude in accomplishing responsibilities. This position operates within departmental policies and established surveying principles. S/He refers any problems to the Survey Crew Chief for resolution or further action.

This position has regular contact with the district Bureau of Program Development to obtain necessary survey information and with the district Bureaus of Operations and Project Implementation regarding interpretation of recorded survey data. External contacts include land owners, private surveyors, county superintendents and city engineers for obtaining information to proceed with survey assignments.

Performance is measured by the timeliness and accuracy of survey information provided.

Principal Accountabilities

1. Collects accurate and meaningful survey data obtained using surveying equipment.
2. Performs routine calculations and the prepares preliminary drafts showing topographic features.
3. Sets barricades and serves as flag person for survey crews working on or near the roadway.
4. Cleans, repairs and maintains surveying equipment.
5. Performs duties in compliance with departmental safety rules. Performs all duties in a manner conducive to the fair and equitable treatment of all employees.
6. Performs other duties as assigned.
