Drainage Repairs on Meacham Road, North of Salt Creek

CHICAGO – The Illinois Department of Transportation (IDOT) announced that shoulder and lane closures will take place on Meacham Road north of Salt Creek, in Rolling Meadows and Schaumburg, for drainage repairs, beginning, weather permitting, Monday, August 15.

In order to complete the repairs, the west shoulder on southbound Meacham Road will be closed while repairs are in progress. There also will be temporary lane closures on Meacham Road that will reduce the roadway to one lane of traffic with flaggers.

The scope of the work includes adding new drainage structures and storm sewers to prevent flooding and improve safety. The project is expected to be completed in September 2016.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
