Intersection Reconstruction at U.S. 6 and Parker Road

CHICAGO – The Illinois Department of Transportation (IDOT) announced that temporary lane closures will take place at the intersection of U.S. 6 and Parker Road, in New Lenox, for intersection reconstruction, beginning, weather permitting, Thursday, May 12.

In order to complete the work, temporary lane closures and lane width reductions will take place in both directions of U.S. 6 and Parker Road. The closure locations will change according to project staging.

The reconstruction project will add turn lanes and new traffic signals at the intersection. The project is expected to be completed in Fall 2016.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
