Dixon, IL – The Illinois Department of Transportation announces today that there will be a lane shift on I-74 for southbound traffic at the south end of the Mississippi River Bridge beginning at 6:00 a.m. on Thursday, April 7, 2016.

The lane change is necessary to make emergency repairs to the travel lane for traffic through the construction project recently started on the I-74 viaduct structure in Moline.

The emergency surface repairs are expected to be completed by the end of the day and traffic returned to the marked travel lane by evening.

Southbound I-74 traffic entering Illinois should expect additional delays for the one day repairs.

Please slow down and use extreme caution while driving through all work zones.
