## **Bridge Rehabilitation on IL 127 in Washington County**

**CARLYLE** – The Illinois Department of Transportation today announced that IL 127, 1.8 miles south of IL 161, will be restricted to one lane of traffic beginning Monday, July 9, 2018, weather permitting. Traffic in both directions will be maintained using temporary traffic signals. This work is required to complete deck patching and to place a new wearing surface on the existing structure. This work is expected to be completed by the end of October 2018.

The Department advises the travelling public to follow all construction signs and drive with caution through the work zones. Delays should be expected and the use of alternate routes may be beneficial.

The contractor on this project is Plocher Construction Company of Highland, Illinois.

Follow our [Twitter](#) page to find details on other construction projects in IDOT's District 8. Updates on the impacts to traffic are available at <http://stl-traffic.org>.
