Interchange Closure at I-70 & Millersburg Road Greenville, Illinois

The Illinois Department of Transportation today announced there will be periodic daytime closures of the I-70 interchange ramps at Millersburg Road, Exit 41, in Greenville beginning Thursday, June 7, 2018, weather permitting. These closures are necessary to complete drainage improvements and paving of the interchange ramps.

During the closures, use Exit 45. The ramps in one direction will be opened before the ramps in the other direction are closed (i.e., eastbound ramps will be opened before the westbound ramps are closed). These interchange improvements are expected to be completed by June 15, 2018. If you drive through the work zone, please stay alert and use extra caution.

The Contractor on this project is The Kilian Corporation of Mascoutah, Illinois.
