Interchange Improvement Project Begins at U.S. 20 and Illinois 59

CHICAGO – The Illinois Department of Transportation (IDOT) announced that lane closures will take place at the U.S. 20/Illinois 59 interchange, in Bartlett and Streamwood, beginning, weather permitting, Tuesday, April 3. The closures are necessary for an interchange reconstruction project.

Beginning April 3, Illinois 59 will be reduced to one lane in each direction, with lane width reductions on U.S. 20 and Illinois 59. Daily lane closures are currently underway at the interchange.

The overall project consists of rehabilitation of the bridge that carries U.S. 20 over Illinois 59, construction of a new ramp, and bicycle and pedestrian improvements. The scope of the project also consists of roadway reconstruction ramp modification, retaining and noise walls.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
