## **IL 143 Will Be Closed East of Wanda/Moreland Road in Madison County**

**Roxana, IL** – The Illinois Department of Transportation today announced that IL 143, just east of Wanda/Moreland Road, will be intermittently restricted to one lane between Wanda/Moreland Road and Sycamore Drive beginning Friday, March 16, 2018, weather permitting. This work is required to remove trees along the existing bridge for upcoming construction. Starting April 16, IL 143 will be completely closed to traffic between Wanda/Moreland Road and Sycamore Drive. The road will remain closed through mid-November of this year in order to replace the bridge and reconstruct the roadway.

The Department's suggested detour for this road closure will be as follows:

- Westbound traffic: Go South on North Access Road to SIUE, then West on New Poag Road, then North on IL 255 to IL 143 westbound.
- Eastbound traffic: Go South on IL 255, then East on New Poag Road, then North on North Access Road to SIUE to IL 143 eastbound.

The Department advises the travelling public to expect delays, follow all construction signs and drive with caution through the work zones.

The contractor on this project is Keller Construction of Glen Carbon, Illinois.
