Intersection improvement at Illinois 173, Wilmot Road

CHICAGO – The Illinois Department of Transportation announced that a project to improve the intersection of Illinois 173 (Kenosha Street) and Wilmot Road, in Fox Lake, will begin, weather permitting, Monday, April 22.

In order to complete the improvements, lanes on both roads will be narrowed, with occasional daytime lane closures required.

The project, which consists of adding left turn lanes to each leg of the intersection as well as modernized traffic signals, is expected to be complete by the end of October.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
