Butterfield Road resurfacings, safety improvements

CHICAGO – The Illinois Department of Transportation announced that two projects to improve pavement conditions and safety on Butterfield Road (Illinois 56) are scheduled to begin, weather permitting, in early May.

Both projects will require daily lane closures:

- Resurfacing and installing rumble streets between the CN Railroad overpass just west of Illinois 59 and the Kane County line, between Warrenville and North Aurora. Construction will start May 1, weather permitting, with a late June completion day.
- Resurfacing and installing pedestrian ramps and traffic signals from Naperville Road to Illinois 53, in Wheaton. Construction will start May 6, weather permitting, with a late October completion day.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
