Culvert replacements on U.S. 20 in Hampshire

CHICAGO – The Illinois Department of Transportation announced that a project to replace culverts and make other drainage improvements on U.S. 20, in Hampshire, will require lane closures at two locations beginning, weather permitting, May 13.

The projects are both over Harmony Creek: On U.S. 20 near the intersections with Getty Road and Big Timber Road. Traffic will be reduced to single lanes controlled by traffic signals at both locations.

Beginning in July, Getty Road will be closed for the duration of the project. A detour will direct traffic to Harmony Road and Big Timber Road.

The work is expected to be complete by December.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
