New lane configuration at Cumberland Circle

CHICAGO – The Illinois Department of Transportation announced that as part of an ongoing reconstruction of the Cumberland Circle at Golf Road (Illinois 58) and North Wolf Road, in Des Plaines, a new lane configuration will start, weather permitting, Friday, Aug. 16.

Wolf Road and State Street will be opened to the circle and again have access to and from westbound Golf Road. There will continue to be no access to or from eastbound Golf Road. On Aug. 24, eastbound Golf Road will be shifted from the right lane to the left lanes and the circle will be closed at Broadway Street from all directions.

The overall project consists of reconstructing the existing traffic circle into a modern roundabout. These improvements will reduce the footprint of the existing circle, provide a larger turn radius for trucks, add splitter islands directing vehicles into their proper lanes and introduce new overhead signage. In addition, the improvements will provide crosswalks on all five legs of the roundabout as well as improved drainage and lighting.

The work is expected to be complete by the end of November.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
