Dixon, IL – The Illinois Department of Transportation announces today that weather permitting, construction work on the structure carrying US 52/IL 64 over Straddle Creek, located 3.4 miles east of IL 78 will begin on June 12, 2019. Civil Constructors will be completing the \$384,720 project including expansion joint replacement and concrete overlay.

Lane closures with traffic signals and barrier wall will be installed at the structure. Drivers should be prepared to stop for the signals that will direct travelers thru the construction. Work is expected to be completed by August 26, 2019.

Motorists can expect delays and should allow extra time for trips through this area. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.
