Reconfiguration of U.S. 51-Andrews Street intersection begins May 22

MACON – The Illinois Department of Transportation announces that construction on U.S. 51 at Andrews Street in Macon will begin Wednesday, May 22.

The four-way intersection is being converted into a safer J-turn intersection, which will require daily lane closures. The work is expected to be complete by Sept. 1.

Motorists can expect delays and should allow extra time for trips through this area. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.
