Sealing of Illinois 91 begins June 3

PRINCEVILLE — The Illinois Department of Transportation announces that chip sealing of Illinois 91 between Illinois 90 and the Stark County line will begin Monday, June 3.

The sealing will require daytime lane closures with traffic maintained by flaggers. Work is expected to last about two weeks.

Motorists can expect delays and should allow extra time for trips through this area. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.
