Work along U.S. 150 near river begins Oct. 28 in Peoria *As part of preparation for new McClugage Bridge*

PEORIA – The Illinois Department of Transportation announces that lane width restrictions and closures along eastbound War Memorial Drive (U.S. 150) between the ramps to and from the southbound Adams Street (Illinois 29) interchange and across McClugage Bridge to Tazewell County begin Monday, Oct. 28.

The width restrictions will be on the ramps to and from U.S. 150 at southbound Illinois 29 with flaggers present to control traffic as crews place temporary pavement. The lane closures will be along U.S. 150 from the Adams Street interchange across the bridge to accommodate work on the Tazewell County side.

Additional work will begin Monday, Nov. 4, on the ramp from eastbound U.S. 150 to southbound Main Street (westbound Illinois 116) in East Peoria, where lanes will be narrowed to install temporary pavement.

These projects are part of the initial work to build the new McClugage Bridge.

Motorists can expect delays and should allow extra time for trips through this area. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.
