Lane closures on Vermont Street in Blue Island

CHICAGO – The Illinois Department of Transportation announced that repairing and clearing drainage structures on Vermont Street between Western and Ashland avenues, in Blue Island, will require daytime lane closures starting, weather permitting, Monday, Sept. 16.

In order to complete the work, traffic will be temporarily reduced to one lane with flaggers. Parking also will be temporarily restricted during construction.

The work is expected to be complete by mid-November.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
