## **New lane configurations on I-290 over Salt Creek**

**CHICAGO** – The Illinois Department of Transportation announced that the ongoing bridge replacement of Interstate 290 over Salt Creek east of Addison Road will require new lane configurations starting, weather permitting, Sept. 30.

With the upcoming completion of the eastbound bridge, eastbound traffic will return to the eastbound bridge while westbound traffic will continue on temporary westbound pavement, separated by barrier walls from the construction zone.

The work is expected to be complete by June 2020.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
