Dixon, IL – The Illinois Department of Transportation announces today that construction work has begun at the intersection of US Route 30 and IL Route 40 in Rock Falls. Last week, Martin & Co. Excavating started the \$1.5 million project to complete drainage improvements, hot mix asphalt resurfacing and traffic signal upgrades at the intersection.

The improvements will require lane closures on both US Route 30 and IL Route 40 for the duration of the project. It is expected to be completed by the end of November.

Motorists can expect delays and should allow extra time for trips through this area. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.
