106th Street resurfacing begins May 4

CHICAGO – The Illinois Department of Transportation announced today that resurfacing of 106th Street from Torrence Avenue to Indianapolis Avenue (U.S. 12/20), in Chicago, will require daily, intermittent lane closures, beginning, weather permitting, Monday, May 4.

The work involves patching and resurfacing the 1.8 mile stretch of 106th Street, constructing new ADA-compliant sidewalk ramps and replacing deteriorated curbs. Access to residences and businesses within the work zone will be maintained during the project, which is expected to be completed in August.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
