## **Taylorville patching projects underway** *Work on Illinois 29, 48 expected to last two weeks*

**TAYLORVILLE** – The Illinois Department of Transportation announces that pavement improvements along Illinois 29 and Illinois 48 in Taylorville are underway.

Work on Illinois 29 is between Webster Street and Pershing Avenue and on Illinois 48 from just north of Lincoln Prairie Trail to 2 miles south of Spresser Street. Both roads have been reduced to one lane with traffic controlled by flaggers. Work is expected to last two weeks and once complete will give a smoother road surface for motorists.

Motorists can expect delays and should allow extra time for trips through this area. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.
