## **Work on Illinois 123 over I-55 begins March 2**

**WILLIAMSVILLE** – The Illinois Department of Transportation announces that repairs to the bridge that carries Illinois 123 over Interstate 55 at Williamsville will begin Monday, March 2.

The work involves bridge deck replacement and will be done in stages to maintain two-way traffic on Illinois 123 with lane width restrictions. There also will be periodic nighttime lane closures on I-55. All construction is expected to be complete by Nov. 30.

The repairs to the bridge are part of IDOT's Transportation Asset Management Plan and will prolong the life of the structure. As a result, motorists will have a smoother road surface that is free of potholes.

Motorists can expect delays and should allow extra time for trips through this area. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.
