U.S. 34/Illinois 167 work in Wataga begins April 1

WATAGA – The Illinois Department of Transportation announces that improvements to the intersection of U.S. 34 and Illinois 167 in Wataga begin April 1.

The work involves road resurfacing and replacement of culverts and guardrails and will require closure of Depot Road and the reduction of Illinois 167 to one lane at U.S. 34. Depot Road traffic will use the marked detour, and Illinois 167 traffic will be controlled by temporary signals during the project, which is expected to be complete in November.

Motorists can expect delays and should allow extra time for trips through this area. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.
