Illinois 336 work begins May 13

Pavement treatment in Hancock County

BENTLEY – The Illinois Department of Transportation announces that construction on Illinois 336 from about a mile north of the Illinois 94 junction to about 2 miles north of Bentley in Hancock County begins May 13.

Work involves placing a microsurfacing overlay, which will extend the useful life of the pavement, and will require lane closures. Crews will make every effort to keep at least one lane open in each direction, and flaggers will be on hand for traffic control.

Motorists can expect delays and should allow extra time for trips through this area. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.
