## Work on Farmington Road begins Oct. 19

**PEORIA** – The Illinois Department of Transportation announced that repairs to the bridge that carries Farmington Road (Illinois 8) over Dry Run Creek, between Park Road and Sterling Avenue just west of Peoria, begin Oct. 19.

The project involves replacement of a beam on the bridge, which will reduced to one lane with traffic controlled by temporary signals. Work is expected to be complete by the end of October.

Motorists can expect delays and should allow extra time for trips through this area. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.

Over the next six years, IDOT is planning to improve more than 3,300 miles of highway and 8.4 million square feet of bridge deck as part of the Rebuild Illinois capital program, which is investing \$33.2 billion into all modes of transportation. Year One included approximately \$2.7 billion of improvements statewide on 1,706 miles of highway, 128 bridges and 228 additional safety improvements.
