## **Stage Change for Illinois 59 Project Begins Monday**

**CHICAGO** – The Illinois Department of Transportation (IDOT) announced today a change in traffic patterns as part of the Illinois 59 reconstruction and widening through Naperville and Aurora will take place, weather permitting, on Monday, June 1.

On northbound Illinois 59 from New York Street/Aurora Avenue to North Aurora Road, traffic will be switched to new pavement. There will be no reduction in the number of lanes. The traffic configuration on southbound Illinois 59 will not be changed.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.

For more information about the Illinois 59 improvements, visit the project website at [www.idot.illinois.gov/projects/il59-reconstruction-and-widening-project](http://www.idot.illinois.gov/projects/il59-reconstruction-and-widening-project). Construction is anticipated to be complete by the end of September.
