IDOT: I-55 NB & SB Exit Ramps to US 30 in Joliet Widening Project Begins August 4

Chicago – The Illinois Department of Transportation (IDOT) announced that weather permitting, work on the northbound and southbound I-55 exit ramps at US Route 30 in Joliet, will begin Monday, August 4, 2014.

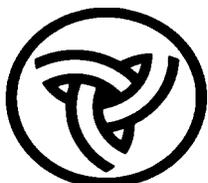

The work will require both I-55 exit ramps to be reduced in width. The closures are necessary to complete widening of embankment and installation of an additional left turn lane on the northbound ramp and an additional right turn lane on the southbound ramp. The anticipated completion date for this project is December 15, 2014.

New traffic signals will be installed on US 30 at both the northbound and southbound ramps. A traffic signal interconnect system will also be installed along US 30 connecting the intersections of Hennipin Drive, Voyager Lane, Mall Loop Drive, northbound ramps, southbound ramps and the West Frontage Road.

Motorists can expect delays in advance of these exit ramps. Drivers are urged to use caution in work zones, obey the posted speed limits, and be on the alert for workers and equipment.

Find details on other construction projects in IDOT's District 1 at www.dot.state.il.us. Updates on the impacts to traffic are available at www.travelmidwest.com.
