## **IDOT: Long-term Closure on NB I-55 at Des Plaines River in Channahon to Begin Early Tuesday Morning**

**Chicago-** The Illinois Department of Transportation (IDOT) announced that weather permitting, a long-term closure of one lane of northbound I-55 at the Des Plaines River Bridge near the village of Channahon, will begin early morning, Tuesday, April 22, 2014. One southbound lane of I-55 was closed in early April and remains closed.

Lane closures are necessary to complete structural steel repairs, painting, bridge deck patching and deck resurfacing on the northbound structure this year. Traffic will be routed utilizing the cross-overs late the week of April 28, 2014. The southbound structure will then carry traffic across the Des Plaines River. The anticipated completion date for this project is September 1, 2014.

Each lane northbound and southbound will be reduced to 13' - 10". A series of warning signs will be erected in advance of the lane closure and in advance of the last interchange. Warning signs will be at entrance ramps from IL 113, IL 129, Lorenzo Road, River Road, Arsenal Road, Bluff Road, US 6 and I-80.

The Smart Traffic Monitoring (STM) System will be used this year. System sensors, eleven portable changeable message signs and cameras will monitor traffic to give real-time updates of travel times and stopped conditions throughout the work zone. As traffic builds, the signs will change with appropriate messages for motorists. Some changeable signs will be placed in advance of the alternate route designated for this project. An alternate route using I-80 and IL 47 to bypass the I-55 construction zone has been posted.

Illinois State Police will have extra troopers in the area monitoring and enforcing the posted work zone speed limit and the hand-held cell phone ban. The new law bans hand-held cellphone use except in an emergency and allows only for speakerphones and

headsets that feature voice-activated or one-digit dialing. The new law, which took effect January 1, 2014, also imposes fines starting at \$75 for drivers caught using a hand-held cellphone while driving. Violators could pay \$150 for repeat offenses and eventually have their driver's licenses suspended.

Motorists can expect delays during times when the lane closures are in effect and should allow extra time for trips through this area. Drivers are urged to pay close attention to the signs in the work zones, obey the posted speed limits, and be on the alert for workers and equipment.
