Road Construction in Decatur

Construction to begin on Illinois 105 / U.S. 51 Business over Lake Decatur.

The Illinois Department of Transportation announces that work will begin on Illinois 105 / U.S 51 Business over Lake Decatur near the dam. Work on the structures will continue over the next two construction seasons.

Beginning Thursday, March 26, 2015, work will begin on the deck replacement project of the structures carrying Illinois 105 / U.S 51 Business over Lake Decatur. A crossover will be utilized to detour traffic to maintain traffic flow. One lane of traffic in each direction will be maintained at all times during construction.

The Department of Transportation thanks you for your patience and asks that you use caution in the work zone and consider using alternate routes.

Illinois Constructors Corporation is the prime contractor for the project and Mark Tucker is the Resident Engineer for the Illinois Department of Transportation. Questions concerning the project may be directed to Mr. Tucker @ 217/424-5116 or Bob Utz at the Effingham Office @ 217/342-3951.

Please slow down and use extreme caution while driving through all work zones
