DATA COLLECTION CAFÉ

- Unique identifies / common field in all data. thread/string to link various data collection methods.
- What data would help to make the right decision(s) about roads.
- Accuracy of hrs & destination data
- Hrs & destination for whole state.
- Modeling for project selection. (How do you measure livability, quality of life).
  Economic Development

PLANNING CONFERENCE

DATA COLLECTION CAFÉ

- GPS DATA
- Signal System - Smart Phone Apps. (partnership with I.B.M.)
- AirSage
- Waves
- Collect data through Smart phone or vehicle technology PPP
- Bicycle/Ped counting, counters
- Strava (State purchase Strava Data)
- How to collect data & How to use data.
- Road ownership & Road Maintenance (township ownership is difficult to determine! if under 4 miles)
- Format of data at Illinois state level
- Data to determine what needs to be done to improve roadway (i.e. added capacity, road diet, complete street, signal timing, etc.)

needs

ART

Sess 1

change

eadership.

bsolescence.

Sess 2

- Integrate w/ AV - how to pay for it

V2V V2I

- Urban location impacts - businesses
  - Productivity ↑ due to less lost time in traffic
- AV - ITS provides flex-can send veh. on tasks
- Fewer Incidents assist safety. but less need for Inc. response.
- Fewer organ donations

- Opportunity to use ITS message into vehicle to market (and pay for ITS)
- Changing ITS tech applications to meet future V2V V2I tech.

Sess 3

- Obsolesence of DMS
  - 10-15 yrs useful
- Expanded Use of DMS?
  - Caution in supplying route option - community impact.
- Integrate Adaptive Sig systems on arterials ~~to~~ w/ Expwy to plan inc. response.
- More extensive wi-fi on transportation infrastructure

- What ITS infrastructure will AV need?
  - Striping - electronic monumenting

David Phillips

Sess 4

- Int. Transit - getting trip planning work
  - Statewide
  - Fixed Route operators ~~in~~ 75% there
  - Continue discussion
    - Goto State CAD/AVL statewide. Ready for ATTS, support Next Gos intro
    - CTA/Pace TSP CTA-140, intersection Portland, Western - Chicago late 16/ early 17

trip planning working Statewide

- Continue discussion
  - Goto State CAD/AVL statewide. Ready for ATSS, support Next bus info
  - CTA/Pace TSP
  - CTA 140 intersections Ashland + Western - Clinton late 16/ early 17

FALL PLANNING CONFERENCE

Long Range Planning

Get Moving!

Illinois Department of Transportation

Long Range Planning

Public Input

or TY

Public Meeting

Papers / Busses

How do we engage when there are immediate needs?

Being transparent

Describes & guides project selection

Move backwards from small issues to large policies

LRTP

Making plans relevant

Importance of Funding

Uncertainty affects local ability to plan

How can IDOT make funding predictable

Predictability is critical

talk w/ general public re: potholes

Funding discussions start here

getting public on board

guidelines for regions to build on

Principals that support plans can use.

reflective of states needs.

vs. wait for final rules

LRTP.

- account for diversity of state
- needs-based, performane in plan
- scope creep problems.
- state prioritizes so that locals can plan for...
- transparency & accountability ↗ "open" "blackbox" of proj. selectio
- using local priorities as guide
- Make public the scores/rankings
- examples of successful strategies
- listening

LRTP

Performance-based.

Coordinate w/ local/regional measures.

Public understanding of why projects are selected

SHOW

Specific to regions / by topic & example

Show how it relates locally.

P3 for data that typically can't get (health/AV)

Access to health data.

Partner w/ IDOT for access w/ MPO / locals.
