IMPACT ATTENUATORS; AND IMPACT ATTENUATORS - TEMPORARY

The Special Provisions for Impact Attenuators, and for Impact Attenuators -Temporary require that these devices meet the crash testing and evaluation criteria of National Cooperative Highway Research Program Report 350 (NCHRP 350), be accepted by FHWA, and on the department's list of approved devices.

The department's lists of approved devices were updated May 6, 2011 to include an added device under IMPACT ATTENUATORS (FULLY REDIRECTIVE, WIDE). Further, the department's list of IMPACT ATTENUATORS - TEMPORARY was updated on May 20, 2011 to include an added device under IMPACT ATTENUATORS -TEMPORARY (NON-REDIRECTIVE).

Please contact Dave Piper at 217-558-1793 if you have any questions.

INSURANCE REQUIREMENTS ON LOCAL ROADS AND STREETS' PROJECTS

All Local Roads and Streets' contracts contain a Special Provision (LR-107-4) requiring the contractor to name listed entities as an additional insured under the contractor's general liability insurance policy in accordance with Article 107.27 of the Standard Specifications for Road and Bridge Construction.

Contractors with "blanket" certificates of insurance will need to have any necessary endorsements in place and submitted to the Contracts Office before the contract can be executed. Local Roads and Streets' contracts can be identified by the second digit of the contract being an odd number. Some contractors have not been submitting the required insurance, which causes delays in execution of the contract.

Bid Submittal Guidelines and Checklist

In effort to eliminate confusion and to standardize the bid submission process the Contracts Unit of the Division of Highways has created the following standard guidelines and checklist for submitting bids at all IDOT lettings.

This information has been compiled from questions received from contractors and from inconsistencies noted on bids received at the bid openings. If you have additional questions please refer to the contact information listed below.

Questions: pre-letting up to execution of the contract

Small Business, Disadvantaged Business Enterprise (DBE)	217-785-4611
Contracts, Bids, Letting process or Internet downloads	217-785-0230
Estimates Unit	217-785-3483

Questions: following contract execution

Including Subcontractor documentation, payments	217-782-3413

Standard Guidelines for Submitting Bids

- All pages should be single sided.
- Use the Cover Page that is provided in the Bid Proposal (posted on the IDOT Web Site) as the first page of your submitted bid. This page has the Item number in the upper left-hand corner and lines provided for your company name and address in the upper right-hand corner.
- Do not use report covers, presentation folders or special bindings and do not staple multiple times on left side like a book. Use only 1 staple in the upper left hand corner. Make sure all elements of your bid are stapled together including the bid bond or guaranty check (if required).
- Do not include any certificates of eligibility, your authorization to bid, Addendum Letters or affidavit of availability.
- Do not include the Subcontractor Documentation with your bid (pages i – iii and pages a – g). This documentation is submitted only if you are awarded the contract.
- Use the envelope cover sheet (provided with the proposal) as the cover for the proposal envelope.
- Do not rely on overnight services to deliver your proposal prior to 10 AM on letting day. It will not be accepted if it is delivered after 10 AM.
- Do not submit your Substance Abuse Prevention Program (SAPP) with your bid. This form is to be submitted to the district engineer at the pre-construction conference if you are awarded the contract.

The Bid Letting is now available in streaming Audio/Video from the IDOT Web Site. A link to the stream will be placed on the main page of the current letting on the day of the Letting. The stream will not begin until 10 AM. The actual reading of the bids does not begin until approximately 10:20 AM.

Following the Letting, the As-Read Tabulation of Bids will be posted by the end of the day. You will find the link on the main page of the current letting.

If you are the apparent low-bidder, there is nothing further for you to do until the contract is officially awarded to your company. If your bid is not within the engineer's estimate it does not mean that the bid will be rejected. The award or rejection of the bids that are not within the engineer's estimate will be determined at the Awards Meeting. The Awards Meeting is usually held approximately two weeks after the letting. The responsive and responsible low-bidders of those contracts recommended for award will be notified by mail.

Use the following checklist to assure completeness and the correct order in assembling your bid

- Cover page followed by the Pay Items.** If you are using special software or a CBID to generate your schedule of prices, do not include the blank schedule of prices.
- Page 4 (Item 9)** – Check “Yes” if you will use a subcontractor. Include the subcontractor name, address and the dollar amount (if over \$25,000). If you will use subcontractor(s) but are uncertain who or the dollar amount; check “Yes” but leave the lines blank.
- After page 4,** insert your Cost Adjustments for Steel, Bituminous and Fuel (if applicable), and your State Board of Elections Business Registration (if applicable).
- Page 10 (Paragraph J)** – Check Yes or No whether your company has any business in Iran.
- Page 10 (Paragraph K)** – list the Union Local Name and number or certified training programs that you have in place. Do not include certificates with your bid. Keep the certificates in your office in case they are requested by IDOT.
- Page 11 (Paragraph L)** Insert a copy of your State Board of Elections Business Registration after page 4 of the bid proposal. Only include the page that has the date stamp on it. Do not include any other certificates or forms showing that you are an Illinois business.
- Page 11 (Paragraph M)** – Indicate if your company has hired a lobbyist in connection with the job for which you are submitting the bid proposal.
- Page 12 (Paragraph C)** – This is a work sheet to determine if a completed Form A is required. It is not part of the form and you do not need to make copies for each Form A that is filled out.
- Pages 14-17 (Form A)** – One Form A (4 pages) is required for each applicable person in your company. Copies of the Forms can be used and only need to be changed when the financial information changes. The certification signature and date must be original for each letting. Do not staple the forms together.

If you are not required to submit Form A; complete the first section (page 14) with your company information and then sign and date the Not Applicable statement on page 17.
- Page 18 (Form B)** This Form is for disclosing active and pending contracts with Illinois State Agencies *other than* IDOT. The Department already has your company’s Affidavit of Availability (BC 57) on file showing all current and pending contracts. Do not attach or reference the BC 57 on Form B. If you check YES to having other current or pending contracts outside of IDOT; list the state agency followed by the contract number on the form or reference an additional information sheet and insert it after the form.
- Page 20 (Workforce Projection)** – Be sure to include the Duration of the Project. It is acceptable to use the phrase “Per Contract Specifications”.
- Bid Bond** – Submit your bid bond using the current Bid Bond Form provided in the proposal package. The Power of Attorney page should be stapled to the Bid Bond. If you are using an electronic bond, include your bid bond number on the form and attach the Proof of Insurance printed from the Surety 2000 Web Site.
- Disadvantaged Business Utilization plan and/or Good Faith Effort** – The last item in your bid should be the DBE Utilization Plan (SBE 2026), DBE Participation Statement (SBE 2025) and supporting paperwork. If you have documentation for a Good Faith Effort, it should follow the SBE Forms.

Special Notice Regarding IDOT Proposals and Authorization To Bid.

ABOUT IDOT PROPOSALS

All proposals issued by IDOT are potential bidding proposals. Each proposal contains all Certifications and Affidavits, a proposal signature sheet and a Proposal Bid Bond required for a Prime Contractor to submit a bid after written AUTHORIZATION TO BID has been issued by IDOT. A Proposal Bid Bond and Authorization To Bid are not required on items designated as Small Business Set-Asides.

ABOUT AUTHORIZATION TO BID (Not required for Small Business Set-Asides)

WHO CAN BID? Bids will be accepted from only those companies that **request and receive** written **Authorization to Bid** from IDOT. To request authorization, a potential bidder must complete and submit Part A of the Request for Authorization to Bid/or Not For Bid Status for ([BDE 124](#)).

WHAT CONSTITUTES AUTHORIZATION TO BID? When a prospective prime bidder submits a BDE 124 and the Affidavit of Availability ([BC 57](#)), he/she must indicate at that time which items are being requested for bidding purposes. Only those items requested For Bidding will be analyzed. After the request has been analyzed, the bidder will be issued an **Authorization To Bid or Not For Bid Report** that indicates which items have been approved for bidding. If **Authorization to Bid** cannot be approved, the **Authorization To Bid or Not For Bid Report** will indicate the reason for denial.

FIRMS UNSURE AS TO AUTHORIZATION STATUS? Firms that have not received an authorization form within a reasonable time of complete and correct original document submittal should contact the department as to status. This is critical in the week before the letting. These documents must be received by three days before the letting date. Firms unsure as to authorization status should call the Prequalification Section of the Bureau of Construction at 217/782-3413.

NOTICE

NO AUTHORIZATION TO BID WILL BE ISSUED UNTIL A **COMPLETED PART A OF FORM BDE 124** AND THE **ORIGINAL** AFFIDAVIT OF AVAILABILITY HAS BEEN FILED WITH THE CENTRAL BUREAU OF CONSTRUCTION.

FOR SMALL BUSINESS SET-ASIDES, THE AFFIDAVIT OF AVAILABILITY IS NOT REQUIRED.

SPECIAL NOTICE

The Department strongly encourages the prime contractor and their approved sub-contractors to hire minority, women and disadvantaged individuals from its federally funded Highway Construction Careers Training Program (HCCTP) to help meet workforce and trainee goals. This program is training minorities, women and disadvantaged individuals in highway construction-related skills, e.g., math for the trades, job readiness, technical skills coursework (carpentry, concrete flatwork, blueprint reading, site plans, site work, tools use, etc.) and OSHA 10 hour certification, to prepare them for a career in the highway construction trades. Graduates are well-trained and ready to become productive entry-level construction workers. Contact the appropriate district EEO officer to learn more about the program and for assistance in meeting workforce and trainee goals.

SPECIAL NOTICE

Please discontinue faxing your Affidavit of Availability with your Request for Authorization to Bid/or Not For Bid Status request.

We are required to use only the *Original* Affidavit of Availability to determine a contractor's authorization to bid. This document has a notarized signature and we must have the *original signature* prior to processing your request. The faxed copies are not being looked at and are just generating excess paper that we have to destroy.

Thank you for your cooperation in this matter.

If you have questions please contact Jim Layden at (217) 782-7806 or Jim.Layden@illinois.gov.

SPECIAL NOTICE

Subcontractor Registration

Subcontractors interested in participating on contracts are required to register with the Department. Prequalified contractors, consultants, material suppliers and trucking companies are **NOT** required to register. Subcontractors can register electronically at the Department's web site, <http://www.dot.il.gov/>. At the home page click on "Doing Business". The subcontractor registration form is listed under Contractor Services. The registration form requires minimal information and can be completed in minutes. Confirmation, along with a registration number, will be received by e-mail in 1-2 days. Registration is valid for one year and will then require renewal. Questions may be addressed to the Prequalification Section, Bureau of Construction.

SPECIAL NOTICE

IMPORTANT NOTICE FOR ALL ILLINOIS CONTRACTORS/CONSULTANTS

The Procurement Communication Reporting requirements of Public Act 96-0795 and Public Act 96-0920 (Senate Bill 51 and Senate Bill 3576) became effective on January 1, 2011. The new law requires the following communications to be reported to the Procurement Policy Board (PPB):

- Communication pertaining to the substance of a procurement matter.
- Communication that suggests a change or asks for a change to be made to a procurement matter.
- Communication regarding a change order, contract renewal or extension, and contract awards for a procurement matter initiated by a vendor.

In addition, a vendor is prohibited from bidding on or entering into a contract if the vendor:

- Assisted the agency in determining a need for a contract (except as part of a public Request for Information).
- Assisted the agency by reviewing, drafting or preparing an invitation for bid, RFI or RFP, etc. (except as part of public opportunity).

Please note that the following communications need not be reported:

- Statements made by a person in a public forum such as a trade show or public meeting.
- Statements made regarding a matter of practice or procedure.
- Statements initiated by a state employee about products, services, or industry best practices.
- Statements initiated by a vendor concerning general information about products, services, or industry best practices -- so long as they are not specific to a current or potential procurement matter.
- Communications initiated by a vendor regarding construction or construction-related contracts resulting in a contract modification of less than \$250,000.

In order to conform to these new requirements, please note that IDOT intends to fully report the substance of any reportable procurement communications to the PPB through a web application developed by Central Management Services. The law requires the PPB to post all communications received on their website within 7 days of receipt of the report.

It is important to understand that all communications received by IDOT employees from vendors will be handled in compliance with the new law. This means that any phone calls, face-to-face conversations, e-mails, or other types of communications that trigger reporting will be fully reported to the PPB in accordance with the law and will ultimately be made public on the PPB Internet site.

More information regarding IDOT Procurement Reform initiative is available on the IDOT Internet Site at the following address: <http://www.dot.il.gov/procurementreform.htm>

SPECIAL NOTICE

Clarification of Reconsideration for DBE Utilization Plans

All prime contractors please take note that the DBE utilization plans, both forms SBE 2025 and SBE 2026, are required to be submitted with the bid on all construction contracts that contain a specified goal in the special provision for Disadvantaged Business Enterprise Participation. Based on recent FHWA clarification, the DBE Special Provision has been updated to clarify what conditions warrant providing the bidder an opportunity for an administrative reconsideration and what documentation may be provided during the reconsideration process.

Under the DBE Special Provision the bidder must either document that it has obtained enough DBE participation to meet the contract DBE goal or, in the event that the bidder has not obtained enough DBE participation to meet the contract DBE goal, documented good faith efforts. If the Department determines that the apparent low bidder has either failed to achieve the contract DBE goal or failed to provide sufficient documentation of its good faith efforts, the bidder will be afforded an opportunity for an administrative reconsideration at which time additional written documentation or argument of the bidder's good faith efforts made prior to the bid may be submitted.

The additional documentation that may be provided and considered during the reconsideration should be limited to information further supporting the bidder's original submittal. In limited cases, where a bidder had genuinely thought it had achieved the DBE goal but a review of the Utilization Plan establishes that the goal was not met, the bidder may submit documentation of its good faith efforts that were made prior to submitting its bid. Allowing additional documentation to be submitted during an administrative reconsideration is not intended to be a method by which a bidder may circumvent the intent of the regulations and the DBE Special Provision by withholding required documentation until the time of a reconsideration proceeding. It is also not intended to allow a bidder to wait until after submitting a bid, but in advance of the reconsideration proceedings, to begin making good faith efforts to meet the goal.

SPECIAL NOTICE

SMALL BUSINESS SET-ASIDES

Several items on this Letting are designated as small business set-asides. In accordance with Section 45-45 of the Illinois Procurement Code and the rules of the Department, only bids from qualified small businesses will be considered for award. To encourage maximum competition, these Small Business Set-Asides are open bidding items. In accordance with the rules of the Department, prequalification is waived for these items. All bidders, including those correctly prequalified by the Department, are required to submit with the bids a Qualification and Equipment Inventory Certification Form. The form is included with the proposal and bidding documents (pages 11a – 11h).

You will find a current list of Set-Asides on the following page of this bulletin. There will be Small Business Set-Asides on future Lettings as well.

Bids that do not have a DBE Utilization Plan as required by special provision will be rejected.

- SPECIAL NOTICE REGARDING DISADVANTAGED BUSINESS ENTERPRISE PARTICIPATION -

1. Disadvantaged Business Enterprise (DBE) Utilization Plan

For proposals that contain a Special Provision for Disadvantaged Business Enterprise Participation **it is the responsibility of each bidder to submit a DBE Utilization Plan (Plan)** ([Form SBE 2026](#) and [Form SBE 2025](#)) as required by the Special Provision. SEE THE SPECIAL PROVISIONS WITHIN THE PROPOSALS FOR SPECIFIC DBE GOAL PERCENTAGES

2. Illinois Unified Certification Program DBE Directory

Pursuant to the requirements of the federal regulations, all state transportation agencies that receive federal-aid funds are required to implement a "one-stop" certification process for DBEs. As a result of this requirement, IDOT, together with the City of Chicago, CTA, Metra and Pace, has established the Illinois Unified Certification Program (IL UCP).

The IL UCP maintains a DBE Directory to provide a reference source to assist bidders/proposers in meeting DBE contract goals. The DBE Directory lists the DBE-certified firms in alphabetical order with their address, contact information and specialty of work. It is the responsibility of the prime contractor/consultant to make his/her own determination regarding the capability of a DBE firm. Only those firms certified as of the letting date/bid opening may be utilized in meeting a DBE contract goal.

3. Supportive Services Consultants

The Bureau of Small Business Enterprises administers the federal Disadvantaged Business Enterprise (DBE) program and ensures that Equal Employment Opportunity, On-the-Job Training (OJT) and Labor contract requirements are met. The goal of IDOT's DBE/OJT Supportive Services program is to provide assistance that fosters opportunities for DBE firms and minority, women and disadvantaged individuals to participate in all phases of Illinois' highway, transit and airport construction industry.

IDOT has contracted with the following consultants to provide its DBE firms with **management** and **technical** supportive services assistance. This assistance is provided at no cost to IDOT's DBE firms, to those firms seeking IDOT DBE program certification, to IL UCP DBE-certified firms who have (or are seeking) IDOT contracts, and to prime contractors doing business with IDOT.

If you have any questions or concerns regarding the supportive services assistance that IDOT offers, please contact the Bureau of Small Business Enterprises at (217) 785-5947.

Management Assistance includes, but is not limited to, assistance with cash flow, bonding and financing, obtaining work/equipment/other resources, obtaining payments for work completed, preparation of business plans, computer technology, certification/prequalification application assistance, assessment of management/accounting/computer systems, assistance with loan package preparation, development of web site/marketing materials/safety plans, and management-related workshops on various topics.
