# ILLINOIS STANDARD HIGHWAY SIGNS BOOK

## INTRODUCTION

This book contains the detailed drawings of the Illinois Standard Highway Signs. These signs are used in conjunction with the signs in the national Manual on Uniform Traffic Control Devices (MUTCD), including subsequent official revisions thereto, as amended by the Illinois Supplement to the MUTCD and the national Standard Highway Signs and Markings (SHSM) book, and intended for use by all traffic authorities, agencies, jurisdictions, and persons involved with the fabrication, installation, and maintenance of traffic signs on streets and highways in the State of Illinois. These drawings are provided to promote uniformity in design in accordance with Title 23 of the U.S. Code and the MUTCD as amended by the Illinois Supplement to the MUTCD.

MUTCD is available on-line at <http://mutcd.fhwa.dot.gov/>

SHSM book is available on-line at [http://mutcd.fhwa.dot.gov/ser-shs\\_millennium.htm](http://mutcd.fhwa.dot.gov/ser-shs_millennium.htm)

Illinois Supplement to the MUTCD at <http://www.dot.il.gov/mutcd/2009%20ILMUTCDOnline.pdf>

Standard signs are designated by letters and numbers such as R2-1. The key to the sign designations is as follows: The beginning letter indicates the general type of sign, such as R for regulatory, W for warning, etc. The first number indicates the sign group such as speed series, crossing series, etc. The number after the hyphen is the designation of the sign within its group.

All Illinois Standard signs which differ from those in the MUTCD will have a letter and number designation beginning with the letter "I," such as I100, to distinguish them from the signs found in the MUTCD. Also found in this position may be lower case letters where there are alternate messages (where there are both word and symbol messages or alternate word messages) or the letters R and L for right and left.
