BDE PROCEDURE MEMORANDUM

NUMBER: 19-02

SUBJECT: BDE Manual Revision – Chapter 41

DATE: January 22, 2019

Chapter 41 of the *BDE Manual* and form BDE 2342 (Storm Water Pollution Prevention Plan - SWPPP) have been revised due to the re-authorization of the ILR10 General National Pollutant Discharge Elimination System (NPDES) Permit for Construction Site Activities. Please see Chapter 41 of the *BDE Manual* on-line to view the revisions.

Background

Due to the re-authorization of the ILR10 permit, Section 41-4, which discusses how to prepare a SWPPP, and form BDE 2342 (SWPPP) were sent out to the Storm Water Committee (SWC) for comment on suggested compliance language as well as other issues and concerns. The following change resulted:

- Section 41-4 has been revised to include definitions, updating the section to match language used in BDE 2342, and additional guidance.
- BDE 2342 has been revised to include language to comply with the re-authorized ILR10 permit, changes requested by the SWC, and other minor format changes.

A handwritten signature in blue ink, appearing to read 'Jack A. Elston', positioned above a horizontal line.
