

Illinois Department of Transportation

Memorandum

To: All Regional Engineers
From: Omer M. Osman, P.E. *DMD/AAW*
Subject: Special Provision for Sidewalk, Corner, or Crosswalk Closure
Date: January 9, 2015

This special provision was developed by the Bureau of Design and Environment to require sloping stripes on both sides of detectable pedestrian channelizing barricades. This special provision is being revised due to a typo on the cover memo; the wrong Highway Design Standard number was listed.

This special provision should be inserted in contracts using Highway Design Standards 701801 and 701901.

The districts should include the BDE Check Sheet marked with the applicable special provisions for the April 24, 2015 and subsequent lettings. The Project Development and Implementation Section will include a copy in the contract.

This special provision will be available on the transfer directory January 9, 2015.

SIDEWALK, CORNER, OR CROSSWALK CLOSURE (BDE)

Effective: January 1, 2015

| Revised: April 1, 2015

Revise the first sentence of Article 1106.02(m) of the Supplemental Specifications to read:

“The top and bottom panels shall have alternating white and orange stripes sloping 45 degrees on both sides.”
