

Illinois Department of Transportation
Bureau of Materials
QUALIFIED PRODUCER LIST OF FINELY DIVIDED MINERALS

March 2, 2018

This list supersedes the **September 29, 2017** list.

Standard Specifications for Road and Bridge Construction Section 1010 (Adopted April 1, 2016)
Current Policy Memorandum, "Acceptance Procedure for Finely Divided Minerals Used in Portland Cement Concrete and Other Applications."

Notes B, C, D, and E apply to the Portland Cement Concrete (BDE) special provision which includes alkali-silica reaction mitigation requirements for cast-in-place, precast, and precast prestressed concrete.

- ^A The R value, an indicator of the relative sulfate resistance of a fly ash, is a ratio of calcium to iron oxide expressed as follows: $R = (\% \text{ CaO} - 5) \div (\% \text{ Fe}_2\text{O}_3)$.
- ^B The average equivalent available alkali content ($\text{Na}_2\text{O} + 0.658\text{K}_2\text{O}$) of this fly ash is $\leq 4.50\%$. However, this does not ensure that fly ash in subsequent shipments will continue to exhibit these properties. Users are advised to request current test data for equivalent available alkali content when specifying fly ash meeting this requirement.
- ^C The average equivalent available alkali content ($\text{Na}_2\text{O} + 0.658\text{K}_2\text{O}$) of this fly ash is $> 4.50\%$.
- ^D The average calcium oxide (CaO) of this Class C fly ash is $\leq 26.50\%$. However, this does not ensure that fly ash in subsequent shipments will continue to exhibit these properties. Users are advised to request current test data for CaO when specifying fly ash meeting this requirement.
- ^E The average calcium oxide (CaO) of this Class C fly ash is $> 26.50\%$.
- ^F The fly ash shall not be used in portland cement concrete or cement aggregate mixture II (Article 1010.02 (b)).

**Finely Divided Minerals Used in
Portland Cement Concrete and Other Applications
Submittal for Testing and Approval**

Effective: July 27, 2007
Revised: July 22, 2016

A. Scope

The following guidelines are provided to clarify the submittal requirements and expedite the process for approving finely divided minerals according to the Department's current [Standard Specifications for Road and Bridge Construction](#) (link embedded), [2016 Supplemental Specifications and Recurring Special Provisions](#) (link embedded), and Shrinkage-Compensating Concrete in Bridge Deck Concrete (BMPPR), and current policy memorandum "[Acceptance Procedure for Finely Divided Minerals Used in Portland Cement Concrete and Other Applications](#)" (link embedded).

B. Procedure

When submitting finely divided minerals to the Department, the following shall be included:

For **Approved Sources** (approved by the Bureau to ship a finely divided mineral for immediate use on Department projects), refer to Section 4 of the policy memorandum.

For **Unapproved Sources** (ships a finely divided mineral which must be sampled, tested, and approved by the Bureau before it is used on Department projects), refer to Section 5 of the policy memorandum. An unapproved source is not permitted for dry expansive component.

In addition to the requirements of the policy memorandum, the following shall be included:

- A signed letter stating the subject material will not be changed without written notification to the Department,
- Contact person's name, title, address, email address, and phone number, and
- Acknowledgement by Company (see next page).

The manufacturer shall submit a minimum 3 kg (6 lb.) sample of the subject material.

The sample and submittal information shall be sent to:

Brian Lokaitis
Illinois Department of Transportation
Bureau of Materials
126 East Ash Street
Springfield, IL 62704-4766

Any sample provided without the required information listed will not be tested. Any changes outside the manufacturer's original parameters will necessitate a new sample submittal. Additional sample submittals shall be according to the policy memorandum.

The manufacturer will be notified when the sample testing is complete. For questions regarding the testing and approval process, contact Brian Lokaitis at 217-782-4028.

Bureau of Materials

**Finely Divided Minerals Used in
Portland Cement Concrete and Other Applications
Submittal for Testing and/or Approval**

Effective: July 27, 2007
Revised: July 22, 2016

Instructions for Acknowledgement by Company:

The owner, partner, or corporate officer shall complete the following and return a signed and dated copy with the product submittal or recertification.

_____ desires to obtain advance approval of materials to be
(Insert name of company)
supplied to Department of Transportation contractors as more fully described herein. I
and _____ understand that the Department of Transportation
(Insert name of company)
reserves the right in its contracts to approve materials at the source of supply as
provided in Article 106.01 of the Standard Specifications for Road and Bridge
Construction. I and _____ further understand that approval of
(Insert name of company)
company supplied material pursuant to this request does not constitute a contract to
supply material to the State of Illinois or any of its contractors, and that the Department
of Transportation does not assure or guarantee that any materials approved hereunder
will be supplied to the State or any of its contractors. In consideration of approval, I and
_____ agree to the terms, conditions and performance
(Insert name of company)
standards of the Standard Specifications for Road and Bridge Construction.
