

Need for Improvements

Improvements to this route are needed:

The purpose of the proposed project is to address existing transportation needs along **55th Street from Wolf Road to Brainard Avenue**. The proposed roadway improvements will **enhance safety for all users, address issues of roadway and intersection operation efficiency, improve mobility, and improve the facility condition and design.**

The need for improvement is based on existing conditions that include:

Substandard geometry at intersections

Numerous access points

Safety concerns

Non-continuous pedestrian and bicycle accommodations
