

What's Next?

Conceptual Alternatives Refinement/Design

- The project will be moving forward on three fronts; engineering, environmental, and public involvement
- The project team will be refining the alternatives and specifically looking at ways to avoid and minimize wetland impacts and impacts to other sensitive resources

Environmental Assessment

- Environmental studies and Environmental Assessment

Public Involvement

- Community Advisory Group Meeting #8 – Late Fall 2015
- Public Hearing with potential Preferred Alternative expected in 2016
