

Community Context Audit

At Community Advisory Group (CAG) Meeting #1, members participated in a community context audit exercise to share details about the affected community

- Help identify unique community characteristics
- Information used to help define the purpose and need for the IL Route 3 Connector Project
- Assures that transportation improvements align with community goals/local plans for future development

Please review the CAG's findings on the board to the right and let us know your thoughts by providing feedback on a Comment Form; or on a Flip Chart.
