January 24, 2020

## **CIRCULAR LETTER 2020-02**

### **FISCAL YEAR 2021 FEDERAL FUNDING ALLOTMENTS:**

- Surface Transportation Program – Rural (STR)**
- Surface Transportation Program – Urban (STU)**
- Surface Transportation Program – Bridges (STP-Br), and**
- State Matching Assistance**

COUNTY ENGINEERS / SUPERINTENDENTS OF HIGHWAYS  
MUNICIPAL ENGINEERS / DIRECTORS OF PUBLIC WORKS / MAYORS  
METROPOLITAN PLANNING ORGANIZATIONS – DIRECTORS

Attached to this circular letter is a listing of the state fiscal year (FY) 2021 federal Surface Transportation Program (STP) allotments and State Matching Assistance Program allotments. The federal STP allotments have been divided into STP-Rural (STR), STP-Urban (STU), and STP-Bridge (STP-Br) categories.

The total amount of FY 2021 STR funds allotted to the counties is \$55,073,841 with \$49,120,739 to be distributed among the downstate counties in Districts 2 through 9. The remaining \$5,953,102 is for use by the eligible counties in District 1.

The formula for distribution of the STR funds to the downstate counties is as follows:

1. Ten percent divided equally among the downstate counties.
2. Balance allocated to the downstate counties on the basis of the following three factors with equal weight being given to each factor:
  - a. non-urban area
  - b. non-urban population
  - c. non-urban mileage (total all systems)

The total amount of FY 2021 STU funds allotted to the urbanized areas is \$190,139,188 with \$156,620,805 to be utilized in District 1 for Northeastern Illinois. The remaining \$33,518,383 is for utilization by the downstate urbanized areas with a population greater than 5,000. The STU funds are sub-allocated to the urbanized areas based on percentage of population of the individual urbanized area to the total urbanized area population for the entire state. Additionally, per Memorandum of Understanding between CMAP and IDOT signed on 12/19/2018, Northeastern Illinois will receive an allotment of \$25,000,000 in STU. This funding is allotted on top of the local STP figure and does not impact the local STP distribution formula.

January 24, 2020

The total amount of FY 2021 STP-Bridge funds allotted to all counties is \$43,272,887. The STP-Bridge funding is distributed based on the combined deficient square footage of eligible county, township, and municipal structures within a county. Requests for local agencies to use STP-Bridge funds will be made through the County Engineer with the approval of the IDOT District. Municipalities with a population of 15,000 or greater may program STP-Bridge funds directly through the IDOT District, with the amount coming from the county allotment.

This year's STP distributions reflects the 2010 census, including any population updates received from the Secretary of State's office, and the 2018 Illinois Highway and Street Mileage Statistics non-urban mileage and non-urban area totals.

The formula for distribution of the \$6,720,000 in state matching assistance is based on 64 percent federal funding and 36 percent local match. This match ratio is variable each year and is generated to result in utilization of the entire state matching assistance amount. A more detailed explanation of the state matching assistance program is also attached.

On August 29, 2019, the Federal Highway Administration (FHWA) made a positive determination that the Illinois Department of Transportation (IDOT) has developed and implemented a transportation asset management plan (TAMP) consistent with 23 U.S.C. 119 and 23 CFR 515. TAMP shifts IDOT's focus to preservation and long-term strategies for proper maintenance of highways and bridges to ensure a longer life. Local Public Agencies with transportation structures on the National Highway System are encouraged to prioritize those facilities during the development of their annual and multi-year programs.

If you have any questions regarding the federal funding allotments or the State Matching Assistance Program, please contact your IDOT District Bureau of Local Roads and Streets office.

Sincerely,

Stephane B. Seck-Birhame, P.E., PTOE  
Acting Engineer of Local Roads and Streets

## STATE MATCHING ASSISTANCE (SMA)

The State Matching Assistance Program is designed to assist counties in matching federal funds when the county cannot derive sufficient matching funds from local taxation. Counties receive a Surface Transportation Program Rural (STR) allotment which may be used to fund up to 80 percent of eligible project costs. Counties are allowed to levy a Federal-Aid Matching Tax to use for the local share. Although an 80/20 federal / local matching ratio is allowable for STR projects, a lower matching ratio is judged to be more equitable when determining the need for matching funds because the counties receive other federal-aid funds in addition to STR funds that require a local match. Some counties do not have a sufficient tax base to generate the local funds needed for the match. The State Matching Assistance Program of \$4 million per year addresses this problem.

The county is required to levy a Federal-Aid Matching Tax of at least .045 percent to be eligible for assistance. To receive the maximum amount it is required to have a tax rate of .05 percent. If the rate is .045 percent, the allocation is 90 percent of the maximum. If the rate is between .045 percent and .05 percent, the assistance is prorated. If the rate falls below .045 percent, the county may retain its eligibility for assistance if a permanent transfer of funds from a non-highway fund to the Federal-Aid Matching Tax Fund is made to meet the equivalent of the minimum eligibility threshold.

The maximum assistance amount for each county is established as the difference between the amount required to match the county's STR allotment using a computer generated federal / local matching ratio and the funds generated by the county's Federal-Aid Matching Tax. This matching ratio is variable each year and is generated to result in utilization of the entire State Matching Assistance amount.

The amount of funds received by each county will vary from year to year. The variable amount of STR funds available each year and the local Equalized Assessed Valuation (EAV) as provided by the Department of Revenue have a direct correlation on the amount of funds to be disbursed based on shortfall. As an example, when the STR allotment increases, the counties will have a greater need for additional match. Conversely, when the STR allotment decreases, the counties will not have a need to match as much federal funding and therefore will require less State Matching Assistance Program funds.

State Matching Assistance Program funds may be used for any federal-aid project.

**Commitment of Funds:** If a county so desires, it may use its accumulated matching funds to defray any part or the entire non-federal portion of any local federal-aid project regardless of the federal matching percentage. The State Matching Assistance funds may be committed as a lump-sum amount or as a percentage of the project cost not to exceed the current available State Matching Assistance allotment for the county.

**Anticipation:** There can be no anticipation of State Matching Assistance funds. In other words, no county can commit more State Matching Assistance funds to a project than it has available at the time of letting. However, existing agreements for active projects may be amended to increase the amount of State Matching Assistance funding when it becomes available.
