Metric "3 R" Policies

#95-15

COUNTY ENGINEERS/COUNTY SUPERINTENDENT OF HIGHWAYS
MUNICIPAL ENGINEERS/DIRECTORS OF PUBLIC WORKS
CONSULTING ENGINEERS

The Bureau of Design and Environment issued "3R" policies for arterials, collectors, and unmarked state routes with BDE Procedure Memorandum 95-20 dated August 1, 1995. These policies, which include both English and metric values, also apply to local agency projects that utilize federal funds. They replace "3R" policies contained in Federal Aid Procedures for Local Highway Improvements and "3R" tables included in Metric Highway Design for Local Roads and Streets, both issued by our bureau.

The "3R" policy was widely distributed by the Bureau of Design and Environment. However, if you have not received a copy please notify Lee Bates from our office at 217/785-1664.

Very truly yours,

A handwritten signature in cursive script that reads "Bill Sunley".

William T. Sunley, P.E.
Engineer of Local Roads and Streets
