Erosion and Sediment Control Seminar

#03-09

COUNTY ENGINEERS/SUPERINTENDENT OF HIGHWAYS  
MUNICIPAL ENGINEERS/DIRECTORS OF PUBLIC WORKS  
CONSULTING ENGINEERS

In January and February of this year, the Illinois Department of Transportation (IDOT), Associated General Contractors (AGC) of Illinois and the Illinois Road and Transportation Builders Association (IRTBA) co-sponsored a series of one-day seminars to bring awareness to the construction community of the new National Pollution Discharge Elimination System (NPDES) Phase II Storm Water Regulations which went into effect on March 10, 2003. The change caused by Phase II of NPDES could be one of the toughest environmental regulations for contractors and subcontractors to meet. These regulations carry a heavy penalty for non-compliance. If a project is cited the penalty can be as high as \$25,000 per day per incident and the resident engineer/technician can also be personally fined.

In response to requests from those who were unable to attend the previous scheduled seminars, or desired to send additional people, another one-day seminar has been scheduled for August 19, 2003 at the Pit Stick Pavilion, located three miles north of I-80 on State Route 23 near Ottawa, Illinois. The seminar will begin promptly at 9:00 a.m. and conclude at 3:00 p.m. The registration fee for this one-day seminar is \$90.00/person (includes a workbook and lunch) and must be paid prior to the date of the seminar.

**All cancellations must be received no later than 4:00 p.m. August 12, 2003 to receive a refund of registration fees.**

Checks should be made payable to IRTBA and sent along with the registration form to:

Lee Swanson  
IRTBA  
500 Park Blvd., Suite 1250  
Itasca, IL 60143-1287
