CIRCULAR LETTER 2008-01

ILLINOIS STATE TRANSPORTATION PLAN 2007

COUNTY ENGINEERS/SUPERINTENDENTS OF HIGHWAYS
MUNICIPAL ENGINEERS/DIRECTORS OF PUBLIC WORKS/MAYORS
CONSULTING ENGINEERS

The "Illinois State Transportation Plan 2007" has been delivered to the Governor Blagojevich and General Assembly. The report may be accessed at www.illinoistransportationplan.org.

The Plan was developed in order to meet federal and state requirements. The statewide public participation process for the plan began early last year. In order to comply with the SAFETEA-LU planning requirements, IDOT developed a set of special reports prior to July 1, 2007. Public participation and refinement of the reports continued through 2007. State legislation required a plan update by December 31, 2007. The plan, which meets both federal and state requirements, includes the Illinois State Transportation Plan 2007 Summary Report and the following special reports:

- Transportation System Updates (Aviation, Bicycles and Pedestrians, Freight Railroads and Intermodal Facilities, Highways, Intercity Passenger Services, Public Transit, and Waterways and Ports)
- Trends, Issues, and System Condition
- System Preservation and Maintenance
- Mobility and Reliability
- Transportation Safety
- Global Competitiveness and System Security
- Environmental Coordination and Quality of Life (including sub-reports on Context Sensitive Solutions and Human Services Transportation)
- Transportation Funding
- Metropolitan Planning Organizations
- Public Involvement

Please contact the Keith Sherman, Office of Planning and Programming, at (217) 782-2755 with any questions.

Sincerely,

A handwritten signature in cursive script that reads "Charles J. Ingersoll".

Charles J. Ingersoll, P. E.
Engineer of Local Roads and Streets
