**FOR THE RECORD – 2019**

**ILLINOIS HIGHWAY PROGRAM ACCOMPLISHMENTS**

**ON THE STATE SYSTEM**

## STATE SYSTEM

The published FY 2019 Annual Highway Improvement Program totaled \$2.269 billion, including \$1.534 billion for improvements on the state system. This investment allowed for 258 miles of roadway to be improved or added to the existing highway system, along with 87 bridge improvements and 42 safety and traffic improvements. The actual accomplishments for FY 2019 are 408 miles of roadway improvements, 78 bridge improvements and 73 safety and traffic improvements.

The adjusted program total for FY 2019 is the net increase to the published program for projects being carried over or advanced, projects added and projects being deferred or determined not to be needed throughout the year. The adjusted program total for the state system is \$1.779 billion. Re-appropriations and other special appropriations were used to fund the net increase to the published program. Improvements awarded on the state highway system using federal, state and local funds during FY 2019 were \$1.458 billion.

The table below reflects these figures:

## GUIDE TO THE LISTINGS

For each project accomplished, the following information is provided:

- Route - the marked route designation and/or street name. For those improvements on unmarked state routes and local system routes, the system designation and route number are provided. Some funds have been awarded for improvements at various locations. In these cases "Various" is noted in the route designation. Also shown is the identification number for each project (0-XXXXX-XXXX), which corresponds to the number in the annual program book.
- County - the county or counties where the improvement is located.
- Description - this item includes both a description of the location of the project and the type of improvement.
- Award Date - for awards this is the date the program item was awarded. For obligations, this is the date the obligation was approved.
