- **Comments**

This study is another year of wasted manpower and tax payers' money to create a job for someone.

When do we get a viable report that justifies such a waste?

I would really like to communicate my true thoughts on this study but the words just simply don't come to my mind. What a time they must have had getting this farce pushed through Springfield.

Chief Keith A. Taflinger

Agency: CAHOKIA POLICE

- **Comments**

Since 2000 the minority population of the Village of Cahokia has increased to approximately 55%. The minority driving population of the Village of Cahokia is approximately 80%. The surrounding communities are Centreville, East St. Louis, Alorton, Dupo and Sauget, Illinois. The combined total minority population of these 5 communities is approximately 90%. Cahokia is the shopping district in the area and recent internal traffic studies has revealed 78% minority daytime driving and night 85%. The school district is an indicator of our minority based population. School District #187 is approximately 80% minorities.

The numbers compared to the Village of Cahokia 2000 census are deceptive, comparing the numbers to the area census indicates the statistics mirrors the population.

Respectfully,

Richard Watson
Village of Cahokia
Chief of Police

Agency: CARBONDALE POLICE

- **Comments**

The City of Carbondale emphasized traffic enforcement during 2007. The goal of increased enforcement was to reduce the speed of traffic on major roadways and reduce the number of intersection related traffic crashes. The safety of motorists and pedestrians using Carbondale roadways was the primary concern in traffic enforcement activities.

The designated "Estimated Minority Driving Population" percentage is difficult to accurately determine for the City of Carbondale. Carbondale is a destination community with significant commuter traffic traveling to employment at Southern Illinois University Carbondale, shopping centers and regional health care facilities. This significant increase in daily commuter traffic in the City of Carbondale is NOT reflected in the designated "Estimated Minority Driving Population" percentage. The actual percentage may, in fact, vary greatly from the designated percentage. The transient nature of the Carbondale community certainly questions the validity of the estimate and must be considered when comparing percentages with neighboring communities. A large transient population increases the potential for increased traffic enforcement based on traffic offenses committed, not by race.

Specifically, members of the City of Carbondale Police Department support the Racial Profiling Traffic Stop Study and do not engage in any activities that are discriminatory or indicative of any practice of racial profiling or bias-based enforcement.

Agency: COLLEGE OF LAKE COUNTY POLICE

- **Comments**

I have reviewed the statistics and they seem accurate.

However, you use the county minority statistics for comparison. The College keeps demographic information each year/semester, and the difference is substantial (36% vs. 23.5%). Is there a way to have the College demographic information used?

- **Comments**

The traffic stop data should be compared against the motoring public, not the residents of a community. The racial makeup of suspected traffic violators has nothing to do with the racial makeup of the residents, this is an apples to oranges comparison. Gather data on the motoring public and compare THAT to the traffic violators stopped. Chief Robert Pavelchik, Darien Police Department.

Agency: **GENESEO POLICE**

- **Comments**

During a review of the 2007 traffic stop data the percentage of citations was analyzed. For all minority drivers stopped, 98, 50% received citations, which is 49 drivers. Of the 49 citations issued the majority, 71% or 35 drivers were issued traffic citations for non-discretionary violations. Those violations entail 14 for driving while suspended, 11 for no valid driver's license, 1 for driving while revoked, 3 for suspended registration, 1 for no valid registration, 1 for driving under the influence of alcohol, 1 for zero tolerance, 2 for no insurance and 1 for false registration sticker. The overall ratio of .56, which is 6.09% of the drivin population, based on a 10.94% jurisdiction population benchmark.

Agency: HOLIDAY HILLS POLICE**▪ Comments**

This program from what I remember was only supposed to be for a four year term then stopped. While I do not believe in or condone discrimination, including reverse discrimination, I think that these resources could be better spent on other endeavors. Resources are fast drying up, including our tax dollars, and the money for this program and others could be better spent elsewhere to help get our state out of the financial disaster that this state has gotten itself into.

Agency: ILLINOIS COMMERCE COMMISSION POLICE

- **Comments**

The report does accurately reflect the number of caucasian drivers stopped as compared to any other race. This is largely due to the number of caucasian drivers on the road. Our agency, which is a regulatory agency does mostly administrative stops and issue administrative citations, which are for the most part against the company and not the driver. When a truck enters on to the weight scale our officers from their vantage point can not determine the race of the driver. They eventually come in contact with the driver after he/she are directed to come into the scale house. It is the same with a truck that is pulled over on the roadway, we have no way of knowing what race we are stopping until that driver is approached by the officer and is directed to step outside of the truck and present their driver's license.

Most of the companies in the United States are headed by caucasians and most of the drivers employed are caucasians.

- **Comments**

Although Racial Profiling took up more of my time, I found the statistics for 2007 very interesting.

Perhaps the form can be reduced in the drug fields to shorten the form and the time inputting the information. We are not sure what the quantity of the drug has to do with Racial Profiling.

Thank You
Mikki Joiner

The data is accurate. I don't know if this is the appropriate forum but I will state my thoughts on this process as a whole. Obviously none of us want to see racism in any form tolerated, but I have a problem with a system that forces me to prove we are not racist. Defendants accused of criminal wrong doing are presumed to be innocent and are not required to do anything to prove their innocence. It's rather ironic that those of us in law enforcement are not afforded the same liberty. Even though there has never been the slightest hint that me personally, or my department as a whole, have ever treated anyone inappropriately, we are required to report data on every car we stop to prove we are not engaging in racist activity. If there is a complaint or concern about a particular department, investigate them. If not, the state of Illinois should afford us the same rights we afford to criminals, and not require us to prove we're doing nothing wrong.

- **Comments**

Northwestern University Center for Public Safety did a study in 2003 to determine the minority driving population within the Village of Lansing. At that time, using Sixth District Court data, it was determined that 47.01% of the driving population in Lansing was minority. This estimated information may have been correct at that time, but surely no one can believe that the minority driving population in Lansing and/or the Sixth District has remained unchanged in almost five years. The number of minorities living within the Village of Lansing has more than doubled during this timeframe. In addition, personal observation has shown that the number of minority drivers traveling the roadways of Lansing has increased very significantly during the last five years. I request that Northwestern University update this 47.01% number using whatever method they desire. At least use current Sixth District Court information, which will reflect a more accurate minority driver population of over 55%. How long will this outdated 47.01% number be used? We hope that Northwestern is not planning to use this number until 2010 census data becomes available in 2011.

- **Comments**

The City of LaSalle has had a large increase of minorities move into the City, which is not reflected in the 2000 census. The City also has a large transient population, which again, is not reflected in the census.

Agency: LINCOLNSHIRE POLICE

- **Comments**

Our Department keeps our data by every ticket, and this data indicates the issue percentage to be 81.2 % White. Indicating a very small, about 1%, chance if your White you could receive a second (multiple violations). Couldn't be more on target.

Agency: LITCHFIELD POLICE

- **Comments**

The statistical results posted for our agency are not surprising. We live and work in a predominantly Caucasian geographic area, made up of families from primarily Euro-American heritages. So, we don't see a lot of minorities, and it appears we are stopping a proportionate number of minorities to the general population, or a little less.

Although we have I-55 running at the western city limit, we do not see a lot of opportunity to stop vehicles that simply get off the road for food and gas, and maybe an overnight stay. If we worked the interstate as part of our regular duty assignments, our numbers would probably be dramatically different. However, with District 18 ISP HQ located in Litchfield, we leave the interstate to the State Police, unless called for assistance.

BJ Wilkinson, Chief
Litchfield PD

Agency: LOMBARD POLICE

- **Comments**

The Lombard Police Department has undertaken a study to try and more accurately determine the driving population in the community. The study involved recording the race of all drivers involved in accidents during the year, as accidents are random in nature. By recording the data, it was learned that the minority driving population for Lombard ranged from approximately 16.74%-21.47% for 2007. The range reflects the fact that the race of some drivers is unknown as they left the scene. Accident data for the last four years indicates a minority driving population range of 16.74%-25.41%.

Agency: MATTESON POLICE**▪ Comments**

The estimated minority driving population listed in the current report is 64.18%. This information is not correct. As of the 2005 special census, our minority population is 74%. Our white (Caucasion) population was listed as 24% on this same special census. The Matteson Police Department respectfully requests that this incorrect estimate be change to reflect the more current data.
Sgt. Michael A. Black

Agency: MOULTRIE COUNTY SHERIFF**▪ Comments**

It appears that one or more of our Deputies has checked the "Native American Indian" box under race by mistake. I am sure these would be a minority citations or warnings but not 195 American Indian.

Upon further investigation by reviewing my Deputies "deatils" page, it was determined that one of my Deputies thought that "Native America/Alaskan" meant White males / Females. I am sure this has thrown our whole data off, including the first 5 months of 2008. This problem has been cleared up as of today.

Agency: ORLAND PARK POLICE

- **Comments**

Gentlemen:

The Orland Park Police Department is in general agreement with your statistical analysis.

We request however that you review our benchmarks of 80% caucasian and 20% minority. As you may know, Orland Park is one of the largest regional shopping areas in the State of Illinois. Orland Park shopping centers produce the seventh highest amount of retail sales on an annual basis to the State of Illinois. Most of this revenue is generated from shoppers residing in Cook County and to a smaller degree from Will County. As you know, Cook County has a higher degree of minorities than caucasians particularly in the southern half of the county. Further, Orland Park has interstate 80 as a southern border and has state highways 45, 6, 7 and 43 running through it. In addition, several of our neighboring communities have a much higher benchmark for minorities than does Orland Park without the regional shopping that attracts shoppers of all races and without the number of state highways and interstate expressways that influence these numbers.

Thank you for your consideration of this request.

Agency: RED BUD POLICE

- **Comments**

I believe the Racial Profiling Project has served its purpose and has effectively demonstrated that the greatest majority of Illinois police agencies are not profiling. The manhours expended in completing data entry for tickets and warnings adversely impact small agencies like Red Bud. We do not have clerical staff so the officers are required to enter the data for each stop; time taken away from patrol duties.

I believe law enforcement has clearly demonstrated that racial profiling is not the issue it was believed/purported to be, its time for the Illinois legislature to repeal the racial profiling mandate. Further more, a more effective approach would be to require the collection and reporting of data when a number of racial profiling complaints have been; filed, investigated and sustained against an agency. The current approach is penalizing agencies who are conducting themselves in a professional manner.

I would hope, using the current data, analysts could identify agencies walking dangerously close to racial profiling and those who are far from it. Take the offending agencies to task and conduct spot checks on the others.

- **Comments**

There were 154 warning tickets entered for 2007 that are not showing on the compilation. We have the warnings on file if necessary. Is there a way to re-enter the warnings and have the warnings as part of the compilation?

Thank You,
Lt Keith J. Aller
River Grove Police Department
708-453-2121

Agency: RIVERSIDE POLICE**▪ Comments**

It is the policy of the Riverside Police Department that its members will not affect a stop of, detain, or search any person when such action is solely based upon considerations of age, gender, or race ethnicity as the action would constitute a violation of the civil rights of that person. It is further the policy of the Riverside Police Department that all of its members be thoroughly familiar with all reporting aspects of Public Act 93-0209 as well as the need for compliance with this statute.

Thursday May 29, 2008

This is the Rockford Police Department's response to the 2007 Racial Profiling Study:

The department does not issue written warnings. This information is reflected in the "Outcome of Stop" area. The department only issues verbal warnings or citations. The report accurately reflects the only two possible outcomes for a traffic stop.

All information on the report is an accurate representation of the 2007 driver stops.

Agency: ROUND LAKE POLICE**▪ Comments**

The estimated minority driving population does not take into account the number of Hispanic motorists traveling into the Village of Round Lake for shopping, food and entertainment. The Village of Round Lake has a thriving downtown that is primarily Hispanic. This downtown area draws thousands of Hispanic motorists from other communities. It is common for these individuals to be involved in traffic enforcement, but they are not represented based on the estimated minority driving population. - Chief Clifton R. Metaxa

Agency: STEPHENSON COUNTY SHERIFF**▪ Comments**

For ease of entering the racial profiling, it would be helpful if the zip codes were entered into your system. After that, when we entered the zip code, the city and state would automatically fill in. This would save a lot of time in entering the stops.

For ease of entering the racial profiling, it would be helpful if we would be able to enter our deputy/officer numbers into the system. This could be done by making that option available during a certain time frame (similar to your option of entering comments on the data). Then when the deputy/officer number was entered, the name would automatically fill in. This also would save a lot of time in entering the stops.

Agency: THORNTON POLICE**▪ Comments**

Once again, the figure of 47.1% for our Minority Driving population is extremely low. This figure has not changed since the start of the study. My estimated Minority Driving Population is at least 75%. New percentages should have been calculated when the study was extended.

Agency: WAYNE CITY POLICE**▪ Comments**

Wayne City is a very small, rural farming community. I, as Chief of Police am presently the only law enforcement officer here. I find this racial profiling study is not much benefit here as we have little to no minority residents. I feel this study would be more beneficial to larger metropolitan areas which has a larger variety and large numbers of minorities, where problems appear to exist already. I do not see or understand how this program relates to a small community such as Wayne City. I feel that those in charge of this program should re-evaluate where it is necessary to use the racial profiling study. Until I am notified of any changes I will continue to submit my monthly forms. Would appreciate a reply to my comment on this matter. Chief David S. Zola
Wayne City Police Department

Agency: WINNEBAGO POLICE**▪ Comments**

According to average daily traffic counts posted on the Illinois Department of Transportation's Website, "2007 Illinois Travel Statistics," there are more than 16,000 vehicles that travel through the intersection of U.S. Route 20 and Winnebago Road on a daily basis. Several retail establishments are located immediately south of this intersection, which is commonly referred to as Winnebago Corners and within the jurisdiction of the Winnebago Police Department.
